

DEPARTMENT OF MECHANICAL ENGINEERING

PUNJABI UNIVERSITY PATIALA

MST-II, Manufacturing Processes

Class- B.Tech.-1 (Semester-1),

Time: 1hr

Max. Marks-15

Note- Section A is compulsory, attempt any 2 questions from section B.

Section-A

Q1. Explain in brief about the following: -

- i. Differentiate drilling and boring processes? (1)
- ii. What is the function of flux in welding process? (1)
- iii. What is brazing and soldering? (1)
- iv. Differentiate: a) Open die forging b) Closed die Forging? (1)
- v. What is the difference between piercing and blanking? (1)

Section-B

- Q3. What is working principle of shaper and planner? Describe the difference between shaper and planner machines in detail. (5)
- Q4. Explain various types of defects and their causes in welding processes. (5)
- Q5. What is extrusion? Explain any three types of extrusion processes. (5)

Mechanical Engineering Department, Punjabi University Patiala

ECB1204T, Manufacturing Processes

B.Tech. CSE1st year (Semester I)

Time-One Hour

MST-II(Nov 2023)

Maximum Marks=15

Note: Section A is compulsory. Attempt any two questions from Section B

Section A (Compulsory & 5 marks)

(1)

a) Define lancing and notching operations?

(1)

b) What are the advantages of plywood over soft and hard wood?

(1)

c) What is difference between counterboring and counter drilling?

(1)

d) What is water seasoning?

(1)

e) What is function of flux in welding?

(1)

Section B (Attempt any two questions & 5 marks each)

(2) Discuss the welding defects? Also give the suggestions to reduce these defects?

(5)

(3) What is the working principle of the planer machine?

(5)

(4) Explain the different extrusion processes?

(5)
